

New!

Wireless Network-Managed Autolock Carts

... IT'S ABOUT TIME—YOURS!

Discover the ease of managing user credentials and lock settings, even those at satellite facilities, from a centralized location!

Benefits Include:

- ✓ Optional independently accessed drawer lock for increased security of controlled substances or valuables
- ✓ Auto-relock so you never have to wonder if your carts are locked in compliance with TJC recommendations
- ✓ Keyless entry means you'll never worry about lost keys
- ✓ Programming of up to 3,000 user or supervisor codes that can be managed from the convenience of your office—change it once and it's done, no matter how many carts you have or where they're located
- ✓ Optional proximity or magstripe card reader that works with your existing employee identification cards using HID proximity, HID iClass proximity, or magstripe card credentials
- ✓ Easily download audit trail reports for the last 15,000 access attempts that include date, time, and user name
- ✓ Seven cart models to choose from so you can find just the right size for your needs
